

OLD VETERANS WERE OUTVOTED

Army Bill Carries \$1,000,000 for Militia Instruction in Regular Army Camps.

LITTLE GOOD PREDICTED

WHAT OCCURRED IN AN OHIO ENCAMPMENT.

Washington, Jan. 9.—By a vote of 27 to 50, the house, in committee of the whole today, having the army appropriation bill under consideration, refused to strike out an item of \$1,000,000 for the purpose of paying the expenses of regiments, battalions, squadrons and batteries of the organized militia to participate in such brigade or division encampments as may be established for the field instruction of the troops of the regular army.

Representative Hay of Virginia said that, so far as he was concerned, they were a farce.

Representative Grosvenor of Ohio, enlivened the house by relating the story of the encampment held last summer near his home in Athens, O. He said that after getting the regulars and militia into camp they had two or three days' maneuvers and then a sham battle.

CONGLOMERATE PERFORMANCE.

He said he had served four years and upwards in the army at a time of active war, and that with a single exception he had never seen any maneuvers either in camp or in battle on any of the magnificent plans and details they undertook to perform at his home.

"I do not know," he said, "what other people's experience at the town where I live was, but I know that we never want to see any regular conglomerate performance such as that was come near us again."

MURDER OF MILITIA OFFICER.

He said there was always an irritation and conflict between farmers' sons and merchants' clerks and men of the regular army. Some trouble happened at Athens, and a soldier of the regular battery was arrested for being drunk and disorderly. A friend located him in jail. That night fifty to seventy-five members of the battery to which the prisoner belonged slipped out of camp, marched up to town and into the jail, and as they were unable to attack a guard of infantry commanded by a young officer, a corporal or a sergeant of the state guard ordered them to halt. Fifty or sixty shots were fired and he fell dead.

CRIME WENT UNPUNISHED.

"There never was a man punished for anything connected with it," said Mr. Grosvenor. "There never was an officer called on to report, and there never was any report made by the commanding officer of that regular battery, and the feeble attempt of the local authorities to punish the men who committed that cold-blooded murder was utterly futile for reasons that I do not care to go into."

He charged that the war department in addition to the regular officers and men had taken up the cudgel in opposition to the authorities and in opposition to the militia of the state.

WASTE OF MONEY.

Representative Hepburn of Iowa thought the million appropriation was an absolute waste of money. He was in favor of greater efficiency in target practice. During the Mexican war, Mr. Hepburn said, seventy cartridges were expended to produce a result; at the battle of Murrefreethorn 119 cartridges were expended to produce a result; at the battle of Santiago 500 cartridges were used to produce a result, he had been told by an officer who participated in that battle.

GRADE NOT ABOLISHED.

A point of order was made and sustained against the paragraph in the

bill abolishing the grade of lieutenant general with the retirement of General MacArthur, the present officer of that rank.

Among the other items stricken out were the following:

Giving the commanding officer at army posts of headquarters or offices of chief of staff authority to appoint clerks and other employees; authorizing the sale of surplus subsistence stores in Cuba and the Philippines; permitting the construction and operation of laundries at military posts; providing for the sale of fuel to officers on the active list; prohibiting the expenditure of any money for brigade posts except by authority of congress.

Mr. Smith of Iowa reported the fortification appropriation bill, and at 4:45 p. m., the house adjourned.

SIXTY YEARS' EXPERIENCE OF AN OLD NURSE.

Mrs. Winslow's Soothing Syrup is the prescription of one of the best female physicians and nurses in the United States, and has been used for sixty years with never-failing success by millions of mothers for their children. During the process of teething its value is incalculable. It relieves the child from pain, cures diarrhoea, griping, colic, and all the ills that flesh is heir to. Price 75 cents a bottle.

GIRL WITH GREEN GOWN.

The Utah Savings & Trust company's 1907 calendar has made a palpal hit. It is called "The Girl in the Green Gown," and is being delivered direct from New York by express to the bank's customers in Salt Lake.

The bank is daily receiving acknowledgments and letters of thanks, in which its customers speak in the most glowing terms of the calendar as the handsomest thing that ever came west of the Rockies.

THE VALUE OF CHARCOAL.

Few People Know How Useful It is in Preserving Health and Beauty.

COSTS NOTHING TO TRY.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking, drinking or after eating onions and other odorous vegetables. Charcoal effectively clears and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels, it disinfects the mouth and throat from the poison of catarrh.

All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges. They are composed of the finest powdered willow charcoal, and other harmless antiseptics, in tablet form, or, rather, in the form of large, pleasant-tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will speedily tell in the complexion and the general health, better complexion, sweeter breath and purer blood, and the beauty of it is, that no possible harm can result from their continued use, but, on the contrary, great benefit.

A Buffalo physician, in speaking of the benefits of charcoal, says: "I advise Stuart's Charcoal Lozenges to all patients suffering from gas in the stomach and bowels, and to clear the complexion and purify the breath, mouth and throat; I also believe the liver is greatly benefited by the daily use of these lozenges, and that twenty-five cents a box at drug stores, and although in some sense a patent preparation, yet I believe I get more and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets."

LARGER FUNDS NEEDED FOR REHABILITATION OF THE INDUSTRIAL SCHOOL

The fifth biennial report of the board of trustees of the State Industrial school at Ogden was filed with Governor Cutler yesterday. The report states that an appropriation of \$109,674.92 will be required to meet the estimated expenses of the institution for the next two years and to pay off deficits aggregating \$35,649.92 which have been incurred since the last legislative assembly.

The officers named in the report as having charge of the affairs of the institution are: President, Dr. E. M. Conroy; vice president, Harry S. Joseph; treasurer, E. M. Evans; secretary, Charles R. Hollingsworth; superintendent, H. H. Thomas; assistant superintendent, W. E. Knease; matron, Mrs. H. H. Thomas; matron girls' cottages, Dora B. Tracy.

There was appropriated by the legislature for 1905 and 1906, \$48,000 and the proceeds from the rental of lands and the interest on land funds made a total of \$57,870 available during the biennium.

APPROPRIATION INADEQUATE.

This amount, according to the report, has been entirely inadequate. The school needs additional farm lands, and a deficit of \$1,600 was created during the period for the purchase of such lands. This land was bought August 14, 1905. The main building was a disgrace to the state at the beginning of the biennium, and \$1,000 was spent to make it habitable and somewhat more presentable.

The amount of \$35,649.92 was appropriated for general maintenance and was entirely inadequate for the needs of the institution, and \$11,264 was spent to April 30, 1906, leaving a balance of \$24,385.92 for the school for the succeeding six months. This was \$279 less than was required to meet the expenses for May, 1906.

The increase in average attendance over 1904 was 42 per cent, and because of the increase in attendance the board of trustees gave the school authority to create a deficit of \$19,529.84 for the balance of the biennium.

On October 20 and 21 a terrific wind storm practically wrecked the main building and \$1,250 was appropriated to repair the damage. The board also authorized the expenditure of \$2,642 for steel lockers and steam fittings and steam heating plant.

REHABILITATION OF SCHOOL.

"The biennium just closed," says the report, "may be termed the rehabilitation of the Utah Industrial school." One reason ascribed for this bright condition is the keen interest taken by Governor Cutler in the affairs of the school.

Military training and discipline are now realities in the school, under the supervision of Assistant Superintendent J. E. Knease, who has introduced military instruction. Captain Knease saw service in the volunteer regiment sent from Utah to the Philippines and according to the report is well qualified for his position.

The school has been equipped with new uniforms and there is a brass band comprising nine pupils of the school. The publication of the Utah Industrial School Advance by the pupils has also been beneficial to them.

EXPENSES HIGHER.

"The expenses of conducting the school much higher than formerly," says the report. "The cost of provisions, sup-

plies and coal is much larger and there is an increased daily attendance." In 1904-5 the total cost of maintenance was \$48,000, as compared with \$27,267 for 1903 and 1904, an increase of \$16,057. The daily average attendance for the biennium just closed was 102.22 as compared with 69.35 for the preceding biennium. This is an increase of 46.76 per cent. The cost per day for general maintenance from 1904-5 was \$1.16, and for the last biennium the average cost for general maintenance per pupils was \$7.08.

NEW QUARTERS NEEDED.

The highest salary paid in the institution is \$85 per month to the superintendent. The juvenile courts have been responsible for a large amount of the increased population of the school, these courts having a wider range of authority and a wider list of offenses for which the punishment is commitment to the institution, than the regularly constituted police courts.

"The removal of the girls from their present location is not only desirable but imperative," says the report. "The close proximity to the boys' quarters tends to the contamination of both and practically necessitates the confinement of the girls in their cottages."

"The trustees have taken an option on land on which to build a cottage for the girls and ask for an appropriation of \$7,750 for the purchase of the land. They will then need \$20,000 for the purpose of building the cottage."

SUMMARY OF ESTIMATES.

The board also recommends the employment of a parole agent to look after the inmates of the institution released on parole. The report says that an assembly hall is badly needed but that they will not ask for an appropriation for this purpose at this time.

The following is a summary of the appropriations requested at this legislative assembly:

To redeem promissory notes given to cover deficit during last biennium, and to pay interest on same	\$25,724.02
To cover deficit created by repairs	\$50.00
General maintenance	\$5,000.00
Manual training	10,000.00
To complete waterworks system	2,500.00
For school library	1,000.00
General improvements	5,000.00
For purchase of additional farm land	2,500.00
Land for girls' cottage	8,000.00
Erection of girls' cottages	20,000.00
Grand total	\$109,674.92

ADDITIONAL FIGURES.

The total valuation of real estate and improvements is \$86,400 and the value of personal property is \$8,550, a total of \$94,950.

During the last two years there have been 112 boys and 31 girls committed, making a total of 143 commitments. The commitments from Salt Lake county were 62 boys and 16 girls.

A tabular statement of the religious denominations of the parents of delinquents committed is appended, showing that of the 112 boys, 70 are from Mormon homes and 42 are from Catholic homes; and of the 31 girls, 21 are from Mormon homes and 10 are from Catholic homes. Other denominations are represented by ones and twos.

TO SUE FOR POLL TAX.

City to Begin Actions Against All Delinquents.

The street superintendent will file with the city attorney today the names of 230 additional residents who have failed to pay polltax for 1906, with instructions to begin suit against the delinquents in the city court. The additional cost will bring the amount to be paid up to about \$7.50 instead of \$5, the regular tax.
